

I IH-MSP 2017

The Thirteenth International Conference on Intelligent Information Hiding and Multimedia Signal Processing

August 12-15, 2017 ■ Matsue, Shimane, Japan

<http://bit.kuas.edu.tw/~iihmisp17>

Conference Founders

Jeng-Shyang Pan Fujian University of Technology, China
Lakshmi C. Jain University of Canberra, Australia
Bournemouth University, UK

Honorary Chairs

Lakshmi C. Jain University of Canberra, Australia
Bournemouth University, UK
Chin-Chen Chang Feng Chia University, Taiwan

Advisory Committees

Yoiti Suzuki Tohoku University, Japan
Bin-Yih Liao National Kaohsiung Univ. of Applied Sciences, Taiwan
Kebin Jia Beijing University of Technology, China
Yao Zhao Beijing Jiaotong University, China
Ioannis Pitas Aristotle University of Thessaloniki, Greece

General Chairs

Junzo Watada Universiti Teknologi PETRONAS, Malaysia
Jeng-Shyang Pan Fujian University of Technology, China

Program Chairs

Akinori Ito Tohoku University, Japan
Pei-Wei Tsai Swinburne University of Technology, Australia

Publication Chairs

Chin-Feng Lee Chaoyang University of Technology, Taiwan
Tsu-Yang Wu Fujian University of Technology, China
Chien-Ming Chen Harbin Institute of Technology Shenzhen Graduate School, China

Invited Session Chairs

Isao Echizen National Institute of Informatics, Japan
Ching-Yu Yang National Penghu University of Science and Technology, Taiwan
Hsiang-Cheh Huang National University of Kaohsiung, Taiwan
Xingsi Xue University of Birmingham, UK

Electronic Media Chair

Tien-Wen Sung Fujian University of Technology, China
Jerry Jun-Wei Lin Harbin Institute of Technology Shenzhen Graduate School, China

Finance Chairs

Local Organization Chairs

CALL FOR PAPERS

The Thirteenth International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2017), is technically co-sponsored by the Universiti Teknologi PETRONAS in Malaysia, Fujian University of Technology in China, and Taiwan Association for Web Intelligence Consortium.

Multimedia technologies facilitate the creation of global information infrastructure for acquiring, storing, communicating data with different forms. Proliferation of multimedia applications raises challenges such as multimedia security and privacy, big data in multimedia, and intelligence in multimedia processing. IIH-MSP is an annual event serving as an international forum for researchers and practitioners from information hiding and multimedia signal processing to exchange latest research outcomes. We invite submissions of original research papers for the conference tracks: (1) Information Hiding and Security, (2) Multimedia Signal Processing and Networking, and (3) Bio-inspired Multimedia Technologies and Systems.

Topics of interest include, but are not limited to:

Track I: Information Hiding and Security

- Watermarking: techniques, attacks, protocols, applications
- Steganography and steganalysis: techniques, protocols, applications
- Cryptography and cryptanalysis: techniques, protocols, applications
- Data authentication issues and access control themes
- Broadcast and public-key encryption
- Forensic analysis and tracing traitors
- Digital rights management and legal aspect
- RFID security and home network privacy
- Platform integrity and trusted computing
- Systems engineering and development for information hiding & security
- ASIC/FPGA/GPGPU design and implementation for information hiding & security
- Enabling technologies and emerging standards for information hiding & security

Track II: Multimedia Signal Processing and Networking

- Multimedia sensing and sensory systems
- Multimedia source coding and channel coding
- Multimedia signal analysis and visualization
- Multimedia signal mining and data fusion
- Wired and wireless Multimedia networking and communication techniques
- Multimedia/multimodal signal interpretation and automatic recognition
- Multimedia databases and retrievals
- Multimedia hyperlink techniques and applications
- Advances in multimedia content description interfaces
- Multimedia big data
- Systems engineering and development for multimedia systems
- Enabling technologies and emerging standards for multimedia systems

Track III: Bio-Inspired Multimedia Technologies and Systems

- Artificial neural networks for multimedia processing: models, learning paradigms, architectures, and implementations
- Fuzzy systems and evolutionary computing for intelligent multimedia processing
- Human-machine multimodal interaction: e.g. face/speech recognition, facial expression and emotion categorization, gesture analysis and recognition, etc.

The conference proceedings will be published in the book series of **Smart Innovation, Systems and Technologies** by Springer. Normally, papers in this series are indexed by EI. If the paper is not presented in the conference, the paper will be excluded from the conference proceedings.

Important Dates:

Invited Session Proposal	Feb. 20, 2017	Apr. 10, 2017
Paper Submission	Jan. 31, 2017	Mar. 31, 2017
Acceptance Notification	Feb. 20, 2017	Apr. 15, 2017
Camera-ready Paper Submission	Mar. 20, 2017	May 01, 2017

Conference email:
